Mines and Mining Stocks

Nearly Twice That of Same Period in 1908.

The value of Nevada's mineral production for the first quarter of 1909, according to the returns made to J. F. Hailey, bul- region is the firm belief of Thomas likely to cause cessation of sinking is the lion tax collector, shows the remarkable

In tax collector, shows the remarkable increase of approximately 175 per cent over that of the production for the first quarter of the previous year. The figures are \$5.32,65.59 with a total amount of the first quarter of the property for the quarter ending March 31, 1968, assecured by officially report deports of the quarter ending March 31, 1968, assecured by officially report deports of the quarter ending March 31, 1968, assecured by officially report deports of the collected on this output of the mines of Newada, as officially reported to this ording assecured by officially reported to this ordinal proported to the ordinal pro that county for the first three months of 1998 was \$6,927,67, while for the first quarter of the present year the total amount of bullion tax collected reached the sum of \$59,677.35, with most encouraging prospects of adding still further to this amount when present litigation is settled. "Another noticeable increase was made in the amount of bullion tax collected in Humboldt county."

"White Pine county, with the first quarter of the year, takes third place in the column of mineral producing coun-ties in Nevada."

Utah Man Most Prominent in Their Development, Says Ray Interest.

An intimation that the Guggenheims are the leading factor in the low grade porphyry propositions which have created so much interest in investment circles, contained in a Boston newspaper, has brought out a statement on the subject from a leading interest in the Ray Consolidated Copper company, who says: "The Guggenheims and their immediate

The company is preparing to construct suitable buildings to accommodate a force of fifty men. Extensive development work to open the property for larger production is planned for the fall and winter.

TOKIO PROFESSOR IS VISITING UTAH MINES

Dr. Benzo Katsuro, professor of metallurgy in the Tokio Imperial uni-versity, has the last week been visit-ing mines of Bingham and other Utah camps to gather data concerning our methods of mining and treating ores. He was yesterday displaying a great deal of interest in the ores of Mercur and the manner of their treatment by evaniding.

Ores and Bullion.

Smelter settlements yesterday, to reported by McCornick & Co.: Ores, \$80,000; bullion, \$100,000. Total for the week, \$712,000. Silver was quoted at 511c; cop-per, 12 15-16c; lead, \$4.40.
